### Care Information

#### This product is suitable for Full Outdoor Use

We test all our outdoor ranges to ensure that they're durable and can withstand the elements. With minor care, these items can be left outdoors permanently.

- Clean and oil timber furniture regularly (at least monthly) using the Freedom Timber Outdoor Care Kit. Remove oil and dirt with a stiff brush using our 'Outdoor Timber Cleansing Wash'. Apply "Outdoor Timber Protective Oil" with a clean cloth or a paintbrush. Leave for a few hours and wipe off excess.
- Furniture made with polyester, man-made wickers and aluminium can be simply washed down with warm soapy water and left to dry naturally. This should be done on a regular basis.
- To prolong lifetime store in a dry location when not in use or during periods of inclement weather.
- Expansion and contraction of timbers will occur with changes in humidity and temperature. This can cause timber to split which is natural and not considered a fault. Over time, all wooden furniture will naturally change to a grey colour when left exposed to the elements.
