

MANLY SIDE TABLE - NATURAL

Outdoor

24413107

Thank you for purchasing the **Manly Side Table - Natural**. Before you begin to assemble your new piece of furniture, please check to ensure that all hardware and parts have been supplied. This page lists all contents included in the carton(s).

Follow instructions closely as deviation from them may present a possible safety risk and may void your warranty.

It is recommended that assembly is done on a soft surface such as carpet to avoid any damage.

If you experience any problems with your new purchase, please contact Freedom Customer Service via livechat@freedom.com.au (Australia) or 0800 469 327 (New Zealand).

Care Information

This product is suitable for Full Outdoor Use

We test all our outdoor ranges to ensure that they're durable and can withstand the elements. With minor care, these items can be left outdoors permanently.

Timber care

To prolong lifetime store in a dry location when not in use or during periods of inclement weather. Expansion and contraction of timbers will occur with changes in humidity and temperature. This can cause timber to split which is natural and not considered a fault.

Over time, all wooden furniture will naturally change to a grey colour when left exposed to the elements. This will accelerate when the timber is not oiled or cleaned

We recommend using Freedom Timber Outdoor Protection Kit. It has been formulated in Australia to help nourish and protect your timber from UV, wind and rain damage when used as directed.

How to use the Outdoor Protection Kit.

It is recommended the following care is performed every 2 months.

- Remove any cushions
- Using a dust pan brush, remove any excess dirt or dust from the surface of the outdoor timber
- Slightly dampen the microfiber cloth supplied with clean water then spray the Cleansing Wash onto cloth from approximately 10cm away. Allow the mist to evenly disperse onto the cloth.
- With the cloth, clean timber furniture thoroughly, ensuring no dirt or grime is left on surface. Allow the surface to dry. Avoid applying to other surfaces
- Pour a small amount of the Protective Oil onto the outdoor timber furniture and evenly spread with the micro fibre cloth until the timber surface is completely covered. Avoid applying to other surfaces. Allow the oil to dry and penetrate for at the timber least 12 hours before use.
- Wash cloth with clean water and dry
