## Care Information

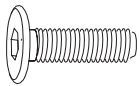

### DO

- Vacuum regularly with a soft upholstery attachment. Dirt combined with body moisture can produce a grime discoloration to the fabric. Vacuuming will also remove grit that can also wear the fabric resulting in damage to the yarns.
- Use a professional dry cleaning service at least once a year to keep the fabric looking good. Temporary pilling can happen with some fabrics. This isn't considered a fault and can be removed using a de-piling machine.

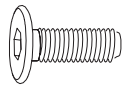

### DON'T

- Don't place the fabric in direct sunlight or near heaters as this will fade and damage the fabric. Use curtains and blinds to protect your furniture from direct sunlight through windows.
- Don't pull loose sewing threads, cut them instead.
